

Bernard N. Goode

Before joining Dawson & Associates in 1997, Bernie Goode was chief of the National Regulatory Program of the U.S. Army Corps of Engineers. In this position, he originated this country's nationwide permit program, regulatory guidance letter system, and regulatory training program.

Bernie authored many policies, and definitions including the 1977 definition of a "wetland" during his 34-year career in the Corps of Engineers. After retiring from the Corps of Engineers he worked on dozens of projects, mostly involving wetlands, in more than 30 states. He assisted a dozen landowner and trade organizations and has taught at 16 wetland training courses around the country.

Mr. Goode had a degree in civil engineering from the Georgia Institute of Technology and was a registered professional engineer in the State of Florida.
